TACKLE HD IS EXPANDING...

TACKLEHD.COM

ABOUT US

We connect anglers with successful angling adventures, by equipping them with products that are proven and productive.

Founded in 2017, Tackle HD launched the Hi-Def Craw; the first original representation of an artificial craw, so detailed, it even fooled other living craws. Years later, our team continues to be driven by a vision to fuel our brand with more exciting products thru expansion in key categories.

This year we launched an endeavor to fulfill Tackle HD's mission to become less dependent on imported products and third-party producers, and more self-reliant on our own capabilities in the USA. As of 2021, 90% of our products are manufactured in the USA in our facility, with our equipment and machinery, and assembled with American labor that we are proud to call our Team.

The Tackle HD Team is also excited to introduce our strategic partnership with Trophy Bass Company. Trophy Bass products are also made in the USA in the same facility as Tackle HD products in St. Clair, Missouri. Trophy Bass products are tournament winning products designed by Casey Scanlon, MLF Big5 Angler and FLW Tournament Champion. Casey's products are proven winners, and we strive to connect anglers nationwide with his great designs.

The team at Tackle HD hopes you enjoy your time on the water.

HI-DEF CRAW

The Hi-Def Craw is the most realistic crawfish imitation to hit the market. But it couldn't just look the part.... it had to act the part! This bait began as a 3D scan of an actual crawfish and was tweaked to make it functional while never losing its high-definition detail. The lifelike movement of the Hi-Def Craw combined with its anatomically correct detail is what truly sets it apart.

TEXAS CRAW BEAVER

The body of the Tackle HD Texas Craw Beaver features forward facing ribs that create pressure waves which let bass know something is invading their territory. The centerline is recessed for better hook penetration, but the 'nose' of the lure is thick for increased durability. The long, flat, beaver tail is split so you have a twin tail presentation. The Tackle HD Texas Craw Beaver also has an additional set of appendages above the beaver tail for additional action. This bait can be rigged on a Texas Rig, Carolina Rig, Shakey Head, or used as a jig trailer.

Introducing the Tackle HD Fiddle-Styx jerkbaits! The Fiddle-Styx produce a wide side to side action that mimics a wounded or dying bait fish. Our jerkbaits were tested in 50-degree water to attain neutral buoyancy, which is the prime water temperature for jerkbait season. Colder water will result in a slow fall whereas warmer water will result in a slow rise in the water column. The Fiddle-Styx have a unique weight transfer system that keeps the nose pointed down when in the water and tail weighted for increased casting distances. Our jerkbaits are equipped with super sharp and sticky hooks for better hook up ratios. Also, our jerkbaits are offered in a two-pack pro pack, which is something that is not offered on the market today.

The "Worldwide Buzzer" is a unique buzz bait designed with Topwater Guru, James "Worldwide" Watson. It was created to be the most versatile buzz bait ever produced. The key features start with the head design. The acoustic channel lets the blade bounce off the head, creating a unique sound that triggers fish to bite. Moving down the bait, we have a large skirt keeper, a lead bait keeper followed up with a wire bait keeper. All of this is mounted on a Mustad Ultra Point hook and Pro Series skirt.

This versatile Buzzer can be fished right out of the box but excels with a swim bait trailer, toad, or your favorite soft plastic.
